

Access Pack 1

NEVER MISS A PARCEL

RECEIVE DELIVERIES INTO YOUR GARAGE SAFELY

**I WANT MY PARCELS
TO BE DELIVERED
EVEN WHEN I'M NOT
AT HOME...**

Keypad

TELECODY COURIER KEYPAD

What's it for and what are the benefits?

The Teledoty courier keypad is a great solution if you don't want to carry a transmitter. You can operate your door from a wall mounted outdoor keypad. It's perfect if you're out cycling or for family members that use the door occasionally. The courier function also offers you a simple and safe and solution for receiving parcels into your garage. Choose to program your door to open a short distance by an access code or by pressing the red button at the bottom of the keypad.

How does it work?

Once the access code is inputted or the red button is pushed, the door will open a short distance to allow delivery persons to slide parcels underneath your garage door. After a short period, the door will close again for hassle free and safe parcel delivery.

What does it need to make it work?

It is an addition to the Teckentrup DRIVE / DRIVE PRO 500 & DRIVE /DRIVE PRO 600 garage door motors.

What else works with it?

It operates as a stand-alone unit or can be fitted with other Teckentrup DRIVE accessories.

How much is it?
