

WHAT'S INSIDE?

The new price list incorporates a 5.5% increase. Our product and technical updates from May are all included in the new price list. Since May we've introduced concealed hinges and an upgraded lock cylinder to our side hinged doors, these are all standard features that arrived without a cost implication.

We've added four pages of "fitters tips" that highlight product solutions such as the between fix options we have available for sectional doors, the frame setting lugs on side hinged doors and QR code links to installation videos. Take a look on pages 16-19.

Sectional doors that require a sloping threshold now have the pricing method - see page 4 "Popular Options". Frosted glazing makes a return as an option on GSA & SLX Vision doors on page 8 and 9. Side hinged doors have surface mounted hinges as a no cost option to the standard concealed hinges - see page 11.

IN OTHER NEWS...

Welcome to Liam Bailey, our new Sales Manager for the South, Mark King our new Sales Manager for the North, both under the guidance of Ian Hetherington, UK Sales Director, and Nathan Hilton as Trainee Technical Customer Support.

We also salute our transport team delivering in our newly doubled in size fleet!
