STAYS

Spring stays are **NOT** included as standard but can be added as an option: **£99 per stay**

A spring stay can be fitted to a leaf to hold the door in the open position, any leaf below 810mm wide cannot have a stay.

Specification

- Anthracite Grey RAL 7016, White RAL 9016, Jet Black RAL 9005
- 40mm thick CarTeck insulated panels with an extruded aluminium perimeter frame and integral seals.
- The complete door has a U value of 2.20 W/m²K (2406 x 2240).
- Three aluminium surface mounted hinges per leaf.
- Extruded aluminium profile frame with mitred corners and integral seals.
- Raised aluminium centre threshold section with bulb weather strip.
- Doors open-out only. Right hand leading (viewed from outside), left hand leading no-cost option – specify when ordering.
- Frames and door-leaf frames are smooth finish only.
- DIN standard CE marked European sashlock & pair of stainless steel round bar lever handles on 50mm diameter roses.
- A Euro-profile cylinder and thumb turn with stainless steel escutcheons is included as standard.
- Three keys are supplied with each cylinder.
- Classic polymer double glazed windows are 680mm wide x 370mm high for all door sizes, are clear glazed only and include black mock-lead effect lattice.
- Spring stays are NOT included as standard – cost option.

Colours

Where doors are exposed to direct sunlight, dark colours should be avoided.

RAL/BS references for colours are provided as a guide only to the nearest similar RAL/BS colour. Colours will not match to other RAL/BS finishes due to different coating processes, gloss levels, substrates and textures.

Colours shown are limited in accuracy by the printing process – samples should always be requested.

If you are matching to other finishes, always request a sample.

The door frame and window frame colour shade and surface lustre will show a variance from the panel finish as the base material and coating methods are different. Where differing materials and process are adopted their maybe some colour matching variations. Differing light conditions may further reduce or highlight this effect.
