## BATTERY BACK UP

### **What's it for and what are the benefits?**

In the case of an emergency, integrated with the control unit, the Battery Pack will supply power during power outages allowing you to open and close your garage door for up to 5 cycles.

### **How does it work?**

In the event of a power outage, the battery back up takes over the emergency power supply of the drive for 24 hours until depletion allowing for up to 5 garage door cycles (opening and closing). When on standby power, operator implements power-saving features including reduced travel speeds.

### **What does it need to make it work?**

It is an addition to the Teckentrup DRIVE / DRIVE PRO 500 & DRIVE /DRIVE PRO 600 garage door motors.

### **What else works with it?**

It operates as a stand-alone unit or can be fitted with other Teckentrup DRIVE accessories.

### **How much is it?**

See the current retail price list.
