

BULLETIN!

IMPORTANT!

IF YOUR SPRING TRAYS ARE ALREADY BUILT THEY WILL LOOK LIKE THIS:

The spring trays are now fully assembled, with the springs, pulleys, spacers and cables set up and lubricated. The tray lid is on and the tray clips set. There should be no requirement to open the trays.

The fitting instruction steps relating to the spring tray assembly can be skipped.

NOTE: Applies to single layer springing (115mm headroom) NOT double layer springing (140mm headroom).

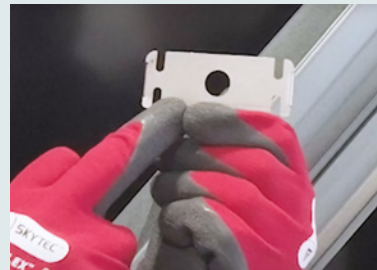

WHAT IS THE COST??

Our pre-loaded spring package is £20 net.

PRELOADED SPRING
INSTRUCTION
VIDEO - SCAN ME!

Scan this qr code or the qr code label attached to the tray lid to watch a video on the quick set up of the cables.

Anti-twist
bracket

The brown tape holds the anti-twist bracket in position. This prevents the cables twisting inside the spring tray whilst you set up the cables.

IMPORTANT: The tape and the anti-twist bracket must be removed but only after the cables are installed.
