

# Security Pack 1

**EXTRA SECURITY**
**FOR ENHANCED BREAK IN PROTECTION**

**I'M WORRIED MY  
GARAGE WILL BE  
BROKEN INTO...**

**Lock**

**Buzzer**

## MOTOR LOCK & ALARM BUZZER

### What's it for and what are the benefits?

The magnetic motor lock mechanically locks the motor in any position (even with ventilation function) up to an attack force of 300 kg, increasing the existing security on your garage door. When the motor senses it is being forced the alarm buzzer outputs a loud signal tone as a deterrent. It can also be set to output a warning buzzer as the door closes (this must be programmed by the installer).

### How does it work?

The lock engages when the door closes. It acts in addition to the motor holding the door closed. The buzzer sounds when the motor senses an attempt to force the door up is being made.

### What does it need to make it work?

It is an addition to the Teckentrup DRIVE /DRIVE PRO 600 garage door motor (Not compatible with the DRIVE / DRIVE PRO 500).

### What else works with it?

It operates as a stand-alone unit or can be fitted with other Teckentrup DRIVE accessories.

### How much is it?

See the current retail price list.
