

WHY CHOOSE TECKENTRUP?

The sweet spot...

... a truly high quality product range
from a company that understands what
your business needs to succeed!

SECTIONAL

Let's tick off some of the key reasons our sectional doors are highly respected by the trade:

Easy to spec, easy to price...

Every panel design is the same price...

including Georgian for significant savings - no explaining why one costs more than another...

All panel surface textures are the same price

- woodgrain, smooth, stucco and microprofile, all the same price - no explaining why one costs more than another...

Copied but never bettered, our price list

- don't get caught out by confusing price structures. All doors, all styles and all textures are simply tabulated. Choose white, Trend/ Trend+ or RAL colour and add your options - it couldn't be simpler!..

A coastal paint upgrade with a warranty -

no vague or non-existent warranty on paint finishes, coastal upgrade 3-years, standard non-coastal finish 5-years...

Easier, faster and lower cost between fits -

our no-holes frame option (same price as a standard back-fix frame) means no need for cover profiles to trim up doors...

Low headroom concealed high level

extension springs on every door - 95%+ of all doors feature 120mm headroom including electric operation, only the very largest need fractionally more, at 140mm. No quoting the wrong price or headroom because you forgot to allow for rear torsion, front torsion, etc...

Low cost coloured frames -

CarTeck coloured frames are a fraction of the cost other manufacturers charge for their often wet-sprayed frames...

Special design or colours -

sloping threshold across one or multiple doors, unusual window layouts, colour matching to Farrow & Ball or other paint ranges, we make it all possible and pain-free...

Flat packed for easier handling -

standard doors are flat packed, one box for tracks, frames and components and panels flat-packed in pairs or singles. Only Vision, SuperSize and XL doors come crated...

It's quick to fit - "We fitted two side by side CarTeck single sectionals in just 90 minutes - the preloaded spring trays are a revelation that make CarTeck faster to fit or as quick as any other manufacturer's doors"...

- Stuart Bald of Garage Door Services Scotland

Consumers love it - the super-safe high level springs, the style and colour combinations, the overall quality of the door and the honest, fair information about the products performance really connects...

The trade-only made to measure door and motor bundle.

AutoTrend PROMO!

DOOR SOLUTIONS

SIDE HINGED

Let's tick off some of the key reasons our side hinged doors are the trade standard:

The door that sets the standard...

Widest design and size choice... Standard Rib, Centre Rib, Solid, Traditional and Toplight in vertical or horizontal variants gives the widest choice along with a host of window options and every door is made to measure all the way up to 3500mm wide x 2500mm high...

Simple pricing - woodgrain, smooth, stucco and microprofile are all the same price, as are all Trend and Trend+ colours - no explaining why one costs more than another...

Concealed hinges as standard - improved security and the best aesthetic with no surface hinges to spoil the look (but surface hinges are available as a no-cost option)...

Side panels for big openings - fixed side panels up to 1000mm wide each are a simple solution to fit a side hinged door in a large opening...

A coastal paint upgrade with a warranty - no vague or non-existent warranty on paint finishes, coastal upgrade 3-years, standard non-coastal finish 5-years...

Easier, faster fits - the wind-out lugs allow easy setting of the door in position for fixing and the adjustable hinges and latching make precise alignment simple...

3-point locking option - increased security is an easy add-on upgrade...

Special design or colours - unusual window layouts, special hardware, colour matching to Farrow & Ball or other paint ranges, we make it all possible and pain-free...

Packed for easier handling - all but the very largest doors over 3188mm wide are shipped fully assembled with lifting straps in heavy duty cardboard, just fit the handle, hook up the stays and job done...

Consumers love it - the reassuring "clunk" on closure, and the widest choice of styles and finishes has made our side hinged the doors consumers ask for...

Switch - the trade-only low cost standard size door promotion.

Switch PROMO!

CarTeck Switch side hinged garage doors offers a great looking solution to standard size openings, whilst keeping things simple and cost effective... and all on a 2-3 week lead time!

- 6 standard sizes
- 3 colours and 3 designs
- 3 surface mounted hinges per leaf
- Aluminium strip threshold
- Friction door stays to each leaf
- U-value of 2.30 W/m²K
- Outward opening, left or right hand leading

It's Trade-only, so no prices splashed all over the internet - you control who takes the saving. Pass it on to your customer or take the improved margin - you decide!

Learn more [here!](#)

CARTECK SWITCH INSULATED SIDE HINGED GARAGE DOOR.
Get both you and your customer the best, the only upgrade!

INSULATED SIDE HINGED

Why upgrade?
CarTeck Switch Insulated Side Hinged Garage Doors have an up and over door in one of four standard sizes -
 • 1981mm x 1981mm 7'0" w x 7'0" h (2134mm x 2134mm)
 • 1981mm x 1981mm 7'6" w x 7'0" h (2286mm x 2134mm)
 onto a 70mm timber frame.
 Hinges are typically one of two standard sizes -
 • 2240mm 7'6" w x 7'4" h (2406mm x 2240mm)
 As the name suggests, these doors allow for a straight switch and are made to replace the door and frame sizes above - how easy is that!
 The sizes shown right are the over-frame sizes that suit the openings left after removing a door and frame. Sizes are reduced by 20mm on the width and 10mm on the height allowing for fitting tolerance. Doors include wind-out lugs for easy installation - no packers required!

Brickwork Opening Sizes:

Width	x Height	Replaces:
2274mm	x 2051mm	
2274mm	x 2204mm	
2274mm	x 2250mm	
2426mm	x 2051mm	
2426mm	x 2204mm	
2426mm	x 2250mm	

CarTeck Switch Over-Frame Sizes:

Width	x Height	Replaces:
2254mm	x 2041mm	(7066)
2254mm	x 2194mm	(7070)
2254mm	x 2240mm	(7074)
2406mm	x 2041mm	(7666)
2406mm	x 2194mm	(7670)
2406mm	x 2240mm	(7674)

Three styles with a smooth finish in three colours and six standard sizes:

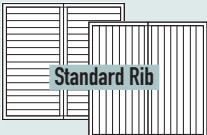

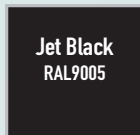

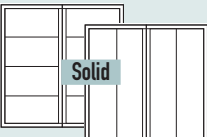

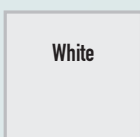

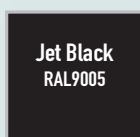

Horizontal Centre Ribbed White	Horizontal Centre Ribbed Black	Horizontal Centre Ribbed Anthracite
Vertical Centre Ribbed White	Vertical Centre Ribbed Black	Vertical Centre Ribbed Anthracite
Classic White	Classic Black	Classic Anthracite

2 Classic polymer double glazed windows are available in clear glazing with black mock-lead effect lattice only and are 680mm wide x 370mm high for all door sizes.

TECKENTRUP
DOOR SOLUTIONS

OUR APPROACH SETS US APART

Let's tick off some of the key reasons why Teckentrup is highly respected by the trade:

Value for money, premium quality with competitive pricing across the range. Lay on top of that our service package and you can sell Teckentrup knowing you're getting the best value, pain-free supplier for your doors...

We are a family business, committed to the industry, not just making a fast buck...

Teckentrup is a family-owned business, just like most of our customers. Family owned really makes a difference - it means we don't concentrate on short term financial reporting to owners or venture capitalists, we focus on running Teckentrup to meet the needs of our customers. We're not in it for a fast buck, but to continue to build a business that contributes to the overall success of the garage door industry.

We have the best team in the industry - many companies say it's all about people but just don't live up to the promise. Teckentrup does. Wrapped around our product is the team in the CarTeck office. We like to play with a straight bat - we keep the information flowing - good or bad, news is easier to deal with when you get it as early as possible.

The office is made up of professional, proficient and helpful staff that manage stock, order materials, plan production, schedule deliveries, manage your orders and warranty.

Everything you need to know is controlled from one point, Warrington.

Sick of arguing about warranties? All we require to provide the replacement parts you need, is your word. Don't stick with a supplier where your word isn't good enough! Don't ever get stuck needing to travel miles back to an installation simply to take pictures to prove what should be taken on your word!

We don't sell our garage doors to every man and his dog...

We're not rushing round trying to open accounts with every installer at silly discounts... We seek measured and sustainable growth that works for us, isn't driving the market price down (and your income as a consequence) and isn't at the expense of our existing customers - playing it straight...

Yes, we want good geographical coverage, but we are selective about who we approach and always consider other customers. We don't offer exclusivity to anyone, but loyalty to Teckentrup carries weight. If we think you may be affected by a new account, we think long and hard about whether we progress things and if we do, we always take the time and courtesy to explain what and why we are doing something - **playing it straight. Which other manufacturer can claim the same?...**

We only sell to companies that have garage doors as a core product within their business... so you won't find yourself competing against other sources of garage doors - trade counters, DIY sheds, etc., selling the same products - playing it straight...

We are not distributors of product made somewhere in or outside of Europe... We're not chopping and changing what we sell or bringing in product from all over the world just to keep the sales coming, irrespective of how it impacts your business...

We manufacture all of our doors at our Warrington facility (well, all but a small proportion - our Supersize and XL doors are made in Germany). The components (track sections, rollers, panels, etc...) are made in Germany, but we manufacture the doors here in the UK. We cut the panels, cut-out for and fit windows, assemble the track and frame leg packs, the whole shebang!... That means we have control over every detail from production, right through to delivery - premium product, quality assured...

We have material stocks... Increased investment in stock holding of materials at Warrington has given us more resilience to supply chain issues and helps us maintain our promise to customers for fast lead times on built-from-stock doors.

We have our own paint plant... A major investment, the paint plant at our Warrington facility adds capacity, flexibility, faster throughput and in-house control of quality for your special colour needs. Get doors colour matched to any RAL colour or any of our Trend+ colours made right here in Warrington.

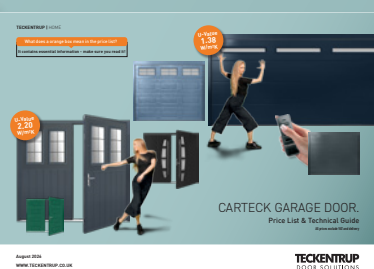

When you need replacement parts in days, not weeks... whatever you need it's typically on the shelf in our Warrington factory. So whether it's for a warranty or to repair a damaged door, you will get it done much more quickly with CarTeck!

Honesty pays... our "Honesty Booklet" and webpage is highly regarded. It helps consumers understand what a Teckentrup door will and, importantly, won't do. It sits alongside our warranty statements to expand on the what a consumer can expect and how to maximise the life and performance of Teckentrup door. No other manufacturer is upfront about even a fraction of the topics our Honesty booklet covers.

We're consistently improving our product range... we control developments – think of how much our side hinged doors have evolved over the last few years into the best in the industry. So good, we feel like every competitor product update is driven by what we've already done!

Marketing and information flow is the best in the industry... weekly emails covering sales tips, toolbox tips, product updates, service updates (good news and bad...). Easy to use price lists, well considered consumer brochures with real UK doors (!) and plenty of useful tools to help you sell more doors...

THE PARTNER THAT PLAYS IT STRAIGHT

TECKENTRUP
DOOR SOLUTIONS

ALWAYS THE BEST SOLUTION. YOUR SOLUTION.

Teckentrup is a family business with operations throughout the world. In the UK, we make our garage doors in Warrington, Cheshire. CarTeck is available through a national network of independent Garage Door Specialist installers.

Teckentrup offers more than garage doors... We provide solutions and have set three quality standards for our garage doors:

Design. Security. Service.

Design

We combine ease of use with aesthetics

Good design uses innovative technology to make using a product intuitive and effortless. CarTeck garage doors offer a wide range of design options that will transform the look of your home and the way you use your garage space.

Safety & Security

We combine security with safety

Our products are designed to provide peace of mind with both physical security and the knowledge that durability and safe operation are inherent.

Service

We combine speed with reliability

The Teckentrup team and our network of Garage Door Specialists installers love to make your new door a pleasure to own. From planning to installation. You'll always receive expert advice and the best service for installation, maintenance and aftercare.

QUALITY & ENVIRONMENT

Teckentrup operates to quality procedures audited to ISO 9001.

ISO 45001 Health and Safety Management System

We care about the environment too - this is why our products are certified in accordance with the Environmental Product Declaration (EPD).

ISO 14001 Environmental Management

ISO 50001 Energy Management
